

REMARKS

New pages 1-96 containing the Sequence Listing are provided to comply with the Sequence Rules set forth in 37 CFR §§1.821-1.825. A Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures mailed along with the Communication on November 15, 2000 indicated that the application failed to comply with rules set forth in 37 CFR 1.821-1.825. A Communication mailed November 30, 2000 reset the period for response thereto. The enclosed new pages 1-96 contain the amended Sequence Listing, support for which can be found throughout the application as originally filed. No new matter has been added. In addition, please find enclosed herewith a copy of the Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures, a Response to Notice To Comply With Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosure, a Statement to Support Filing and Submission of DNA/Amino Acid Sequences in Accordance with 37 CFR §§1.821 through 1.825, and a computer readable form (CRF). Further, the contents of the paper copy of the Sequence Listing and computer readable copy of the Sequence Listing, submitted in accordance with 37 CFR §1.821(c) and (e), are the same.

In view of the foregoing, Applicants respectfully submit that the claims are in condition for allowance. An early notice of the same is earnestly solicited.

Respectfully submitted,

Paul K. Legaard
Registration No. 38,534
